PRESS

Forthcoming Fall 2026

SUMMARY OF CONTENTS

TABLE OF CASES

TABLE OF AUTHORITIES

Chapter 1. Introduction

1. Terminology
2. Why AI Law? The Law of the AI Horse
3. AI's Many Contexts, Uses, and Harms
4. Regulating the Harms and Benefits of AI
5. Roadmap
6. A Sociotechnical Perspective

PART I. AUTOMATED DECISIONMAKING

Chapter 2. The COMPAS Case Study: Recidivism Risk Assessment Algorithms in the Criminal Justice System

1. Tech Primer: Decision Trees
2. COMPAS in Action

Chapter 3. AI and Due Process: Government Use of Algorithms in Civil Cases and Benefits Administration

1. Child Welfare Screening
2. Government Benefits

Chapter 4. AI and Discrimination Law

1. Primer: How AI Can Discriminate
2. Disparate Impact
3. The Discriminatory AI Decision

Chapter 5. Regulating AI Decisionmaking: New Laws for Algorithms

1. The Law of Automated Decisionmaking: An Overview of Scope and Rationales
2. Individual Rights: Notice, Contestation, Opt Out, Explanations
3. A Deeper Dive: An Introduction to EU Law, Explanations, and the GDPR's Article 22
4. Systemic Regulation: Impact Assessments, Transparency, Audits

PART II. AI AND PHYSICAL HARMS

Chapter 6. Tech Primer: Neural Networks

1. Neural Networks
2. Using Neural Networks to "See"
3. Technical Decisions with Legal and Policy Impacts

Chapter 7. AI and Tort Law

1. The Technologies: Autonomous Vehicles and Medical AI Devices
2. Products Liability
3. Negligence
4. Strict Liability

Chapter 8. AI and Product Safety

1. AI Medical Devices
2. Autonomous Vehicles

PART III. GENERATIVE AI

Chapter 9. Tech Primer: Generative AI

1. An Introduction to Generative AI
2. Shaping Generative AI
3. Generative AI's Harmful Behaviors

Chapter 10. Copyright Law and Generative AI

1. Introduction to U.S. Copyright Law
2. Is an AI-created Work Protected by Copyright?
3. Do the Outputs of Generative AI Infringe?
4. Secondary Liability

Chapter 11. AI-Generated Content and the First Amendment

1. Introduction to the First Amendment
2. The Coverage Question
3. Scrutiny and Protection
4. The Puzzle of Compelled Speech

Chapter 12. Synthetic Content (“Deep Fakes” or “Deepfakes”)

1. Risks and Harms; Appropriation/Impersonation; Governing Electoral Content and NCII
2. Appropriation/Impersonation
3. Multiple Kinds of Fakes, Multiple Kinds of Laws
4. Regulating Technologies
5. Synthetic Content and Platform Policy
6. Synthetic Content and the First Amendment

Chapter 13. Regulating Generative AI: New Laws?

1. The U.S. Approach: NIST's Policy Role
2. The EU AI Act
3. Provenance and Watermarking
4. Open-Weight Models

PART IV. REGULATING PRIVACY

Chapter 14. AI and the Fourth Amendment

1. Fourth Amendment Coverage: The Meaning of “Search”
2. Fourth Amendment Justification: Predictive Policing and Reasonable Suspicion
3. Data Mining: Finding Needles in Previously Collected Haystacks

Chapter 15. AI and Data Protection

1. When Does Data Protection Law Apply?
2. The Life Cycle of Data and/Versus the Life Cycle and Supply Chains of AI
3. Fair Information Practice Principles
4. Lawful Bases and Further Processing

5. Data Protection Rights

Chapter 16. Facial Recognition

1. An Introduction to the Issues
2. Facial Recognition Laws

PART V. DESIGNING AI LAW

1. An Introduction to Regulatory Design

Chapter 17. Consumer Protection Law

1. The Federal Trade Commission
2. Consumer Financial Protection Bureau (CFPB)
3. State UDAP Laws
4. Consumer Protection as AI Regulation?

Chapter 18. General AI Regulation

1. The EU AI Act
2. South Korea's Framework Act on the Development of Artificial Intelligence and Establishment of Trust

Chapter 19. AI Soft Law: Principles and Standards

1. AI Principles
2. AI "Technical Standards" (Or Are They?)

Chapter 20. Regulating Safety and Alignment

1. Safety, Alignment, and Existential Risk
2. The U.S. Approach
3. EU AI Act: General Purpose AI Systems with Systemic Risk
4. AI Safety Institutes
5. Three Manifestoes on AI, Acceleration, and Risk
6. California Law: S.B. 1047
7. Coda
